Summer Study in Peru
June 19 to July 2, 2007 – We will meet at the Chester Campus of John Tyler Community College on June 16-17 and July 14-15

ITE 115 Introduction to Computer Systems
This course introduces students to computer concepts and Internet skills using a software suite which includes word processing, spreadsheet, database, and presentation software to demonstrate skills required for computer literacy. This course is not intended for Computer Science or Information Technology majors. The students will develop projects using Word, Excel, Power Point and Access using data, information and photographs from the area.
*Note: This course is fully transferable, between Virginia Colleges, and some Universities. There are no pre-requisites.

SPA 211- Intermediate Spanish Conversation
This course is communicative in nature and will enable students to improve their understanding, speaking, reading, and writing skills in the language. All classroom discussions and readings will focus on the culture and literature of the Andean region, specifically Peru. There will be two class required meetings prior to the trip and, upon returning from Peru, participants will be required to attend two additional class sessions. Note that all instruction will be conducted in the target language.

These courses will expose the students to life and studies in a city in the middle of the Andean mountains, Cajamarca, in Perú. Classes will be held in educational institutions in this city, one of them a compound from the 17th century. There will be projects that will be developed with some interaction with local students.

The Agenda includes visits to:
• Cajamarca, the city where the last Inca was taken prisoner
• Los Baños del Inca (Inca Baths with termal waters)
• Lima – Main square and colonial buildings
• Lima city tour and Museums
• Cuzco Main square and colonial buildings
• Sacred Valley of the Incas, Pisac, Urubamba and Ollantaytambo
• Intiwatana, Sacred square
• Machu-Picchu
