

## **Engineering Application Documentation**

### **Tyler and other VCCS courses**

No additional documentation is required. All Tyler and VCCS records are already in SIS.

### **Precalculus at another college**

An unofficial transcript is sufficient to demonstrate completion, because Precalculus does not transfer for credit in the Engineering AS program.

### **AP Scores**

AP scores may be sent officially OR demonstrated to an Advisor in one of the Advising Centers, by showing the scores on the College Board website.

### **Calculus or English at a non-VCCS college**

Submit an official transcript because Calculus and English classes will transfer to Tyler for credit.

### **Due Date**

Please submit the application and documentation as soon as possible and ***no later than*** the Monday before the start of the next semester.

### **Change of Academic Major**

Your major will be changed after all necessary documents are received and reviewed.

### **Questions**

If you are not sure about your eligibility, please contact the Advising Centers or your Academic Advisor.
